Operation of Plants in China Fully Restored

Further to our announcement on July 4 regarding partial resumption of plant operation at Dongguan Chang'an Rihua Electronic Plant, one of the Company's manufacturing contractors in China, and Dongguan Alps Electronics Co., Ltd., one of the Company's subsidiaries in China, we hereby announce that operation has been fully restored with both plants resuming normal operation today.

We sincerely apologize for the significant concern and trouble caused to all stakeholders by the temporary suspension of plant operation. We will continue to provide support to the plants not only from our plants in China but also on a global basis in order to quickly recover from the impact of the production delay due to the temporary suspension of plant operation.

The Company believes that the impact caused by this incident to the Company's consolidated financial results will be minor.

The Company and other companies in the Alps Group are determined to strive to enhance mutual understanding and trust between Japan and China even further and to respect the spirit of amicability and cooperation, thereby strengthening sound business operation.
