Precautions when handling our products
For the export of products which are controlled items subject to foreign and domestic export laws and regulations, you must obtain approval and/or follow the formalities of such laws and regulations. Products must not be used for military and/or antiscientific purposes such as terrorism, and shall not be supplied to any party intending to use the products for such purposes. Unless otherwise stated, the products have been designed and manufactured for application in equipment and devices which are sold to end users in the market, including audio-visual (AV) equipment, electrical home appliances, office machines, information and communication equipment, and amusement equipment. The products are not intended for use in, and must not be used for, any application for nuclear equipment, mining equipment for aerospace or any other unauthorized use. With the exception of the above-mentioned prohibited applications, please contact an Alps sales representative and/or evaluate the equipment regarding applicability for applications involving high levels of safety and liability such as medical equipment, medical alarm equipment, disaster prevention equipment and underwater equipment. Please also incorporate fail-safe design, protection and redundant circuitry, malfunction protection, and/or fire protection into the complete system to ensure safety and reliability of the total system. Before using products which were not specifically designed for use in automotive applications, please contact an Alps sales representative.

Cautions for using this catalog
- Specification indicated in this catalog is outline only. When employing the product, use of an officially authorized specification for supply contract is recommended. Please note that the colors of products shown in this catalog may be a little different from those of the actual products. Names for products and companies and titles of specifications indicated in this catalogue are mostly trademarks or registered trademarks of their respective owners. Please contact us for any inquiries and queries on our products and their uses. This catalog is valid till the end of March 2016.
